SOCIAL EVENTS

Splendid Concert
The auditorium of the M. P. Temple as well as the annexes were crowded last evening for the concert of the West Virginia University and the M. P. Temple choirs and an artistic program was splendidly rendered. The concert was given under the direction of Prof. Louis Black, director of both organizations. The program consisted of solos, duets, quartettes, and choruses and was greatly enjoyed by an enthusiastic audience. Many were forced to stand during the greater part of the performance.

Club Dance
The dance given by the Little Club, a recently formed social aggregation at the Masonic Temple last evening, was a success from start to finish and was well attended by members of the local dancing sets. The music which was splendid was furnished by the Mason Dixon orchestra of Clarksburg, the organization featuring Skim Young, vocalist and banjo player. Patronesses were Mesdames C. E. Smith, Kenna Clark, S. D. Brady and J. E. Watson, Jr. The committee in charge of affair was composed of Messrs. S. D. Brady, Kenna Clark, Frank C. Haymond, C. E. Smith, C. H. Alexander, James Knight, Bernard Arnett, Charles Arnett and Dr. C. C. Bell.

MONONGAH

Small Fire
The home of F. M. Lipscomb in Lambert street, caught fire about 4 o'clock this morning and considerable damage was done to the interior of the building besides burning up a wardrobe containing some costly clothing and linens. The fire caused by a defective flue, was discovered before it had gained much headway and Mr. Lipscomb, with the assistance of neighbors, had the fire out before the local fire department arrived on the scene. The fire department could not be reached by telephone, and this fact explains their delay.

Good Sermon
Rev. C. C. Lawson of Fairmont, who has been expected here this week to assist Rev. McCoy in his revival services, was present last night and preached a fine sermon which was a reminder of old times when Rev. Lawson was pastor here. His sermon last night had great effect, and several members of the audience came forward.

To Wendell
Mrs. Joseph Bodine, of Washington, D. C., who has spent the last few weeks here as the guest of her sister, Mrs. Nancy Watkins, left yesterday for Wendell, Pa., accompanied by her sister, Mrs. Lee Jones. They will be the guest of their sister, Mrs. Thomas Jones, while at Wendell.

LARGE CLASS

Pittsburgh Coal and Coke company.
Only one man is required to operate the large producer and the machinery of the producer proper is operated by a five horse power electric motor. The conveyor, elevator and coal conveyors however are operated by a second motor. Three men have been selected to operate the producer working three eight hour shifts.

In following the coal from the time it is dumped from the railroad car to a bin under the track until it is turned into the large furnaces of the company, as gas, lime, marvells at the achievements of man.

When the coal hits the bottom of the pit, it lands on a conveyor which carries it to the crusher where it is crushed, and then dumped upon a moving belt which carries it to the top of a shaft about 75 feet high, where it is dumped upon a moving belt which carries it across the railroad tracks to the bunker above the producer. This bunker has a capacity of 5 tons of crushed coal. From this bunker the coal is automatically fed to the producer by means of a rotating drum, this is regulated by the man in charge who adds more or less coal as needed by the furnace.

In the producer proper there is usually about 21 inches of ashes and about the same amount of burning coal. The volatile material of the coal is driven off first and coke or fixed carbon remains. Moist air is blown through the producer, forming carbon monoxide and hydrogen, two combustible gases and the inert nitrogen of air remains in the gas to the extent of 45 percent. The B. T. U. of this gas averages about 75, while natural gas averages about 1150. Seven volumes of producer gas is equivalent to one volume of natural gas when burned. Each volume of producer gas requires 1.1-2 volume of air, while natural gas requires 10-12 volumes. In the producer the crushed coal is as

CASE CONTINUED
The election case of the Harry B. Clark Coal Company versus the Murphy-Devany Apartment company came up in circuit court today before Special Judge M. W. Odgen. Upon motion of attorneys for the defense the case was continued.

Attorneys Ward Lanham and Ernest Bell are representing the plaintiff, in the action and attorneys Harry Shaw and Brooks A. Devany the defendant. Judge V. S. Meredith was unable to sit in the case as he had been employed as counsel for one of the parties before being elevated to the bench.

STEELS FORWARD ON THE MARKET

National Biscuit Favored Among Food Specialties at the Opening

(By Associated Press)
NEW YORK, Jan. 18.—Independent steels continued to move forward at the opening of today's stock market as a result of more circumstantial consolidation rumors. Gulf States steel asserted its recent leadership at a further gain of 2 1/4 points. Virginia Iron Coal and Coke, Haskell and Barker, International Motor, Studebaker, Goodrich and Strohman, also were strong. Atlantic Coast line added one point to yesterday's gain and National Biscuit was most favored of the food specialties. Crucible steel at a one point decline and American Tobacco at a loss of 1 1/4 were among the few reactionary issues.

Business was on a very extensive scale during the morning, but trading ran more to specialties. Ralls were utterly neglected and few former favorites among steels and equipments made more than nominal changes. Gulf States Steel extended its gain to five points, but reacted 2 points before noon. Sloss-Sheffield Steel, Railway Steel Springs, American and Baldwin Locomotives were 1 to 3 points higher at their best. Motors and their subsidiaries, Studebaker, Perce Arrow common and preferred, Fisher body and Goodrich rose 1 to 3 points. Persistent selling of Crucible Steel, which reacted 2 points, caused impairment of gains before noon. Call money opened at 4 1/2 per cent.

Speculative interests extended their bullish commitments in the stock market today. Ralls were the only striking exceptions to the further extreme advance of 1 to 5 points. Sales approximated 900,000 shares.

The midday reaction ran from 1 to 2 points off. Accumulation by pools at the lower levels then began to have an effect and prices soon advanced briskly to top figures for many leaders. American Woolen, Baldwin and Republic, Lackawanna and Bethlehem steels were absorbed.

Daily Shipments.
While Curtis Bay shipments off the Monongah division, B. & O., drew a blank yesterday the Arlington Pier consignments were 6 cars. Eastern coal loading was 422 cars while those west were 86 cars. No coke was loaded or shipped yesterday.

East of Grafton.
Six trains yesterday drew 505 freight loads on the B. & O. east of Grafton of which 291 cars were coal. West there were 338 loads. At midnight there were 77 east-bound loads unmovable on the Monongah division of which 680 cars were coal.

A total of 515 loads of freight were moved by sixteen trains east of Grafton on Monday of which 340 were coal. To the west there were 269 freight loads moved.

Working Conditions.
Fifty-six mines were at work today on the three railroads. Of these there were 42 on the Monongah division, B. & O., 2 on the Western Maryland and 12 on the Monongahela in West Virginia. In the Pennsylvania end of the Monongahela railway there were 15 mines working today.

Today's Empty.
Today the mines on the three railroads ordered 832 empties as follows: Monongah division, B. & O., 497; Monongahela, 239; Western Maryland, 46.

Daily Production.
Coal production on the three railroads yesterday aggregated 761 cars and was as follows: Monongah division, B. & O., 484 cars; Monongahela with M. & W. included, 269 cars; Western Maryland, 8 cars.

Mines on the Charleston division B. & O., on Tuesday loaded 84 cars while the operations on the Monongahela railway in Pennsylvania on Tuesday loaded 219 cars. Loading on the Charleston division has showed some slight improvement during the past few weeks.

CHICAGO WHEAT
CHICAGO, Jan. 18.—New upturns in the price of wheat took place during the first part of the session today owing chiefly to lack of selling pressure. Firmness in foreign grain quotations tended also to lift values here. Some attention, too, was given to word that a bill had been introduced in congress this morning to fix the minimum price of wheat at \$1.50 a bushel. The opening, which varied from unchanged futures to 1 1/4 higher, with May at 111.78 to 112.18 and July 109.12 to 109.54 were followed by a slight set back and then by a rise all around to well above yesterday's finish.
Corn and oats were firm with wheat. After opening a shade off to 1 1/4 higher May 53 to 54 the corn market eased a little then advanced.
Oats displayed independent strength starting unchanged to a shade higher and then scored a moderate general advance.
Provisions responded to a fresh upturn in hog values.

WOMAN'S CENSORSHIP

The Dixie.
As Seen Monday Morning.
"A Certain Rich Man" is the story of a man who, in following after riches, sacrificed upon the altar of greed, his friends, business associates, widows, and for years or innocent victims, and for years he seemed to prosper, but at last restitution came, in a most terrible and unexpected way, and he brought to realize that money cannot buy happiness.

In his grief, through the loss of his wife, he is led to the foot of the cross by his dear old mother and there finds the peace and comfort that only God can give. Then he sets about to make reparation as far as possible, for wrongs committed, and restores to those he has robbed their money with interest, and comes back home, a poorer but a better and happier man.

It is a strong, stirring story, well enacted, and bringing home its lesson with force.

We like Harold Lloyd, who plays in "The Eastern Westerner," and think him a very clever comedian, but would like to see him in a vehicle really worthy of his abilities. Practically every picture of western life have barroom and dance hall scenes, and as a matter of course they are not typical of life in the west today.

We wish we might have some pictures of the west with action, minus the vice, that characterizes most of them, so that our young people could see them without being so much offended.

All pictures that have scenes that depict vice are not to be condemned, if there is a lesson to be learned, or sin is punished, but vice is made alluring, without showing the consequences of wrong doing, then, that picture does untold harm.

The Princess.
As Seen This Morning.
Bebe Daniels in "The Speed Girl," gives us a splendid example of present day living in which many are exceeding the speed limit in everything.

Miss Daniels portrays the role of Betty Lee, who has a mania for doing things on a fast scale, and is so daring that she fears nothing or nobody, but is suddenly brought to a halt in her mad career, in a very unexpected manner.

It is a clean comedy, but also presents truths which are worth thinking about.

There is also Pathe News of unusual interest, and a two reel Mack Bennett comedy.
